t pressing questions so every day can be gorgeous

Q I often read things about picking the right haircut or sunglasses for my face shape — but I don't know what face shape I have. How can I figure it out?

A Here's an easy trick! Pull your hair into a tight ponytail and look in the mirror. Using lipstick, outline the shape of your face on the mirror, then step back and see what shape you've drawn. If the width and length of your face are about equal, your face is oval. Round faces are more circular, with

full cheeks. Heart-shaped faces have a narrow, pointed chin. And square faces have sharp, angular corners at the hairline and jawline. Now clean your mirror with hot water and liquid dish soap!

Q I often see retinoid creams at my drugstore and I'm curious about what they do and how they work.

A "Most over-the-counter retinoids do absolutely nothing (or very little)," says NYC-based dermatologist Dr. Gary Goldenberg. Prescription retinoids, on the other hand, have several important functions: They help with maturing skin, acne and give skin a youthful glow. Ask your dermatologist for a prescription formula, which will improve discoloration and diminish fine lines.

Q I really love the look of bangs, but my hair is so curly. Will bangs work on me?

A Absolutely, but "consider a longer bang, as hair shrinks up from the curl," says Tena Parker Baker. After washing hair, apply a defrizzant, which will keep curls smooth and intact. Then, using a blow-dryer with a diffuser, direct bangs to the side, creating the illusion of height and length. Finish with another dollop of defrizzant to hold them in place!

John Frieda Frizz Ease Beyond Smooth Frizz Immunity Shampoo and Conditioner, \$9 each, drugstores

Jane Seymour

For Jane's bouncy, voluminous locks, flip hair from side to side when blow-drying!
