Our fave go to skin doc, Gary Goldenberg (Mt. Sinai Medical) just opened a new private location on the Upper East Side. What does this mean to us fashion enthusiasts? A more private environment to get your laser glowing groove on – and still under the care of one of the

[SuperDoctors](#) (nyT) in New York.

With an impressive background in medicine, [Dr. G](#) will continue to practice medical procedures at the new location on east 75th – while you are awesome hands of a PRO for your aesthetic enhancements. Services Dr. G is offering at the new location include microneedling, [Botox](#) and Dysport, Injectable fillers, Chemical peels and and my favorite glow-to... [lasers](#).

the GOLDENBERG DERM new office is located at 14 East 75th St. NY NY 10021 | 212-405-8202 | (appointments@goldenbergderm.com).

why I'm all **about the lasers**:

Thanks to the high precision and effectiveness of lasers, they are in my opinion the easiest route to improve skin tone + texture – and *no invasion*. From treating redness and acne, to treating wrinkles and reducing the appearance of scars and discolorations – and even hair removal, laser is my recommend.

What's awesome about getting the treatment at GoldenbergDerm is that Dr. G., a master in medical skin health, personally performs the treatment to maximize the benefit of each device and combines or switches therapies when needed. That in itself gives me the confidence.

You can set up a consult to meet + chat, and #askDrG his recommendations – medical or aesthetic.
