KNIFESTYLES OF THE RICH & FAMOUS

The OG of *The Real Housewives of Orange County* is very candid when it comes to nip-tucks. In 2012, Vicki Gunvalson, 55, admitted to getting a nose job, chin implant and fat injections in her face to smooth out wrinkles. And in 2016, she told Andy Cohen she had recently undergone an eye-lift. "Of course I did," she said of the rumors. "I'm not going to deny it. Doesn't it look great?!" Our experts are divided on the results of Vicki's various tweaks. "Overall, she's looking more and more plastic," says plastic surgeon Dr. Anthony Youn, who, like the other ex-

"She appears to be a surgery enthusiast."

— Dr. Anthony Youn

perts used in this story, has not treated the star. "Her cheeks look plumped up, and I also suspect she's smoothed her forehead and frown lines with Botox." Adds surgeon Dr. Ryan Neinstein: "Her cheeks are slightly overfilled, and she has a very sculpted appearance." But board-certified dermatologist Dr. Gary Goldenberg says Vicki "looks good—contouring with fillers has helped her look youthful, and laser work has helped her skin quality." 

2010

NOW

FOREHEAD

"It seems she's been getting Botox for some time," says Dr. Goldenberg. "There are no wrinkles or fine lines on her forehead." Price tag: \$900-\$1.2K.

CHEEKS

Vicki likely has had fat or filler injected in her midface area. "The contouring is done well, and it's not too overdone," says Dr. Goldenberg. Facial fillers run about \$1.2-\$1.5K.

SKIN

"She doesn't have a lot of sun damage," notes Dr. Goldenberg, who credits microneedling (in which miniscule punctures are made in the skin to stimulate collagen growth). Cost: \$600 and up.

LIPS

Her noticeably fuller pout "looks to be filled with Juvéderm," says Dr. Youn, who estimates the cost of top and bottom lip injections at about \$2K.
