# Stars Go Overboard With Lip Plumping

Someone needs to tell these naturally pretty stars that bigger is not always better!

CARTOONY KYLIE!

## KYLIE JENNER, 19

She once admitted to making her lips "too big" in the past – but Kylie hasn't learned from her mistakes. "They look fake," says Michigan-based plastic surgeon Dr. Anthony Youn. "I would recommend being more conservative. A little can go a long way!"

BEFORE

## NICOLE SCHERZINGER, 38

Fans freaked when Nicole revealed a suddenly plumper pout – and Dr. Youn says they were right to be upset. "She had perfect lips before," he laments of the singer, who didn't respond to the outcry. "Now, both the top and bottom have been plumped to an unnatural state."

BEFORE

## RUMER WILLIS, 28

"If I want to change things about myself, I'm not going to lie," says the *Dancing With the Stars* alum, who hasn't addressed her massive mouth. "Her lips are so excessively plump that she may have trouble with that straw," says Dr. Youn. "The natural contours have been obliterated."

BAD LIP SERVICE

BEFORE

BEFORE

## BELLA THORNE, 19

The lack of a Cupid's bow takes Bella's lips to frightful territory, says Dr. Youn, who suspects the actress has had "multiple filler injections." Adds NYC-based plastic surgeon Dr. Ryan Neinstein: "It's too much for the framework of her face."

## KIM ZOLCIAK, 38

The *Real Housewives* alum has admitted to using lip fillers – and clearly has no intentions of stopping. "She's lost her natural lip anatomy," says NYC-based dermatologist Dr. Gary Goldenberg. Sums up Dr. Youn: "It looks like she got stung by a bunch of bees."

LIKE MOTHER, LIKE DAUGHTER

BEFORE

## BRIELLE BIERMANN, 20

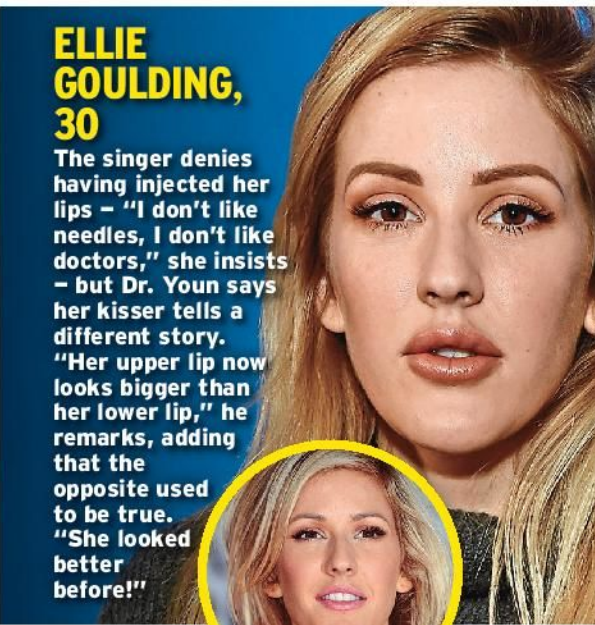

Seems Kim's belief that bigger is better was passed down to her daughter. "These are what you call sausage lips," says Dr. Goldenberg. "The Cupid's bow is almost non-existent, and the lips are almost completely straight across."

BEFORE

## ELLIE GOULDING, 30

The singer denies having injected her lips – "I don't like needles, I don't like doctors," she insists – but Dr. Youn says her kisser tells a different story. "Her upper lip now looks bigger than her lower lip," he remarks, adding that the opposite used to be true. "She looked better before!"

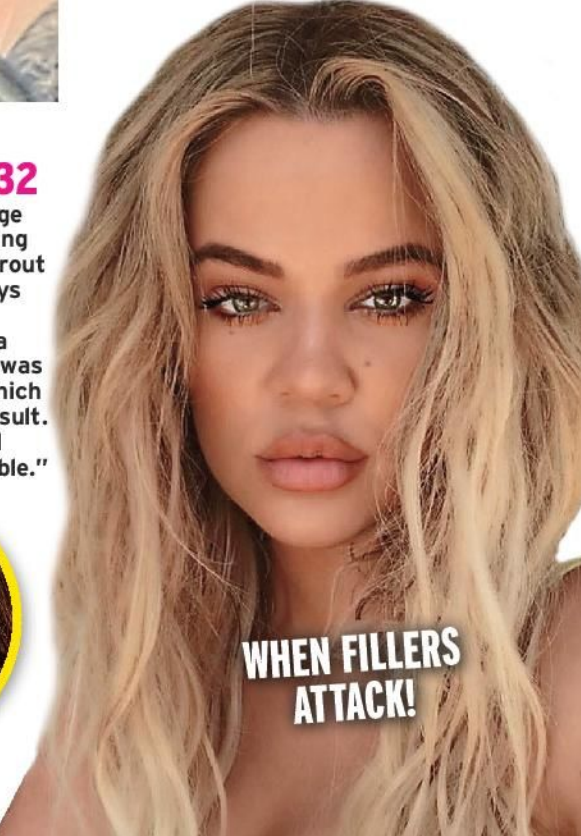

BEFORE

## KHLOÉ KARDASHIAN, 32

She may have a revenge body, but there's nothing enviable about Khloé's trout pout. Dr. Neinstein says poor placement is to blame. "It seems a majority of the product was placed in the midline, which gives an over-the-top result. A more symmetrical augmentation is preferable."

BEFORE

WHEN FILLERS ATTACK!

The experts quoted in this story have not treated these stars.
