### FOREHEAD

"There are no wrinkles or lines," observes dermatologist Dr. Gary Goldenberg, who thinks "she's been getting Botox for some time." Cost: \$900-\$1.2K per treatment.

### SKIN

Cheryl's skin "seems softer and smoother now," says cosmetic surgeon Dr. Alexander Rivkin. He thinks she's either using Fraxel lasers (\$1.2K per treatment) or microneedling (\$1.7K).

NOW

### EYES

The experts agree: Cheryl appears to have had work done on her lower eyelids. "She's had fillers to reduce the hollowness and dark circles under her eyes," says plastic surgeon Dr. Ryan Neinstein. Price tag: About \$1K per syringe.

### JAW

Plastic surgeon Dr. David Shamouelian says Cheryl has changed the contour of her jawline to make it "less boxy and more feminine." He suspects Botox to the jaw muscles (\$500-\$600 per treatment).
