**Why does  
my scalp get  
so itchy in  
hot weather?**

It's probably a mix of perspiration and product buildup, says dermatologist Dr. Kristina Goldenberg. Massage your scalp with a dandruff shampoo once a week to get rid of dirt and oil.

Good news! The ocean already did most of the work for you. Just elevate your natural texture with a statement accessory like Chrissy Teigen's marigold Jennifer Behr headband, says the star's hairstylist Jen Atkin.

**What's the best way  
to get rid of frizz?**

No hair type is immune to heat and humidity. Luckily there are ways to stay smooth this summer

**TRY A KERATIN  
TREATMENT**

An in-salon treatment (which costs around \$300) will keep you frizz-free for three to five months, says Kattia Solano, owner of Butterfly Studio salon in New York City, which offers the Cezanne version. "It uses glycolic acid, a silk

protein and keratin to smooth out each strand," she explains. **Important safety note:** Ask your salon for a list of the active ingredients in the treatment they use, and avoid anything with formaldehyde or formaldehyde-releasing ingredients (you can find a list at fda.gov), says Perry Romanowski, a cosmetic chemist at thebeautybrains.com.
