THEN

GETTY (2)

KIM ZOLCIAK-BIERMANN, 40

The *Don't Be Tardy* star has been vocal about filling her lips but insists that her nose – the thing NYC-based plastic surgeon Dr. Ryan Neinstein says “changed her entire look” – is the same one she was born with. “Why would I not talk about a nose job?” she asks. New Jersey-based plastic surgeon Dr. Steve Fallek isn’t a fan: “Bad nose before, bad nose after,” he says. “You should be able to buy a better nose – one that fits your face!”

AUBREY O'DAY, 34

“I can see where she tried to make improvements, but she went overboard,” says Dr. Fallek. “She had a wholesome girl-next-door look, and now she looks like a plastic doll.” The reality star maintains that makeup – not plastic surgery – is responsible for her transformation.

THEN

LIL' KIM, 43

The rapper's infamous makeover probably cost around \$50,000, says Dr. Fallek. “She looks plastic,” says Dr. Abrishamy, who suspects everything from eye reshaping and cheek and lip implants to a nose job and chin refinement. (Kim has denied plastic surgery rumors in the past.)

THEN

Shocking Facial Transformations...

THEY LOOK LIKE DIFFERENT PEOPLE!

Who's that girl? These stars have become barely recognizable

THEN

TAMAR BRAXTON, 41

“Everything is real,” says the reality star, who insists she's only gone under the knife to put a piece of cartilage from her ear into her nose. But Marina Del Rey, Calif., dermatologist Dr. Shawn Abrishamy suspects that's not the whole story. “Her cheeks look fake,” he says. “They're upsetting the balance of her face.”

THEN

PRISCILLA PRESLEY, 73

Aging is always a factor when looks change over time, but in the case of Lisa Marie's mom, surgery is a bigger one. “She looks completely different,” says NYC-based dermatologist Dr. Gary Goldenberg. “Almost unrecognizable.” He suspects Botox, fillers and a chin implant set the star back \$10,000.

ASHLEE SIMPSON, 33

The singer's famous nose job was just the beginning! “Her plump lips make her look like a different person,” says Troy, Mich.-based plastic surgeon Dr. Anthony Youn. Still, most docs agree that the changes were all for the better.

THEN

The experts used in this story have not treated these stars.
